

# Give Mickey Another Title

James Laverack

March 2012

## The Society Notes

1. That Michael John Walker continues to serve the Anime and Science Fiction society as an advisor.
2. That the original Science Fiction and Fantasy society (that became part of the original Anime Society) had a long-running tradition of applying titles to an honored member.

## The Society Believes

1. That one title (of “Vice-Vice-President”) is not enough.

## The Society Resolves

1. To change the society constitution in order to give Mickey another title by amending the constitution as follows:
  - a **ADD** “b. The society recognizes Michael John Walker both as a continued influence and for his ability to make the society’s wishes a reality. Therefore the society grants him the lifelong advisory non-committee position of Master of Contracts.” to Section 11.
